

Canruss Medical and Safety, a leading provider of Industrial Medical Services is seeking 2-3 Nurse Practitioners to become members of our medical team on a large and remote Hydro Electric project in NWBC. Working a rotation of two weeks in and two weeks out, you will be provided transportation to and from the project where you will work 14 consecutive 12 hour shifts in a clinic setting. In the field you will be supported with both first aid attendants and Paramedics. This 3 year project will have you exposed to some of the most beautiful and pristine parts of the world on Canada's west coast. Camp accommodation and meals will also be provided.

Canruss would consider using up to 4 NP's to job share this position.

Please contact myself or email your CV to [steve@canruss.com](mailto:steve@canruss.com)
