## NURSE PRACTITIONER – CEDARS AT COBBLE HILL RESIDENTIAL TREATMENT CENTRE

**Job Title:** Nurse Practitioner - Cedars at Cobble Hill Medical Team

**Community:** Cobble Hill, Vancouver Island

**Status:** Permanent part-time to full-time

**Closing Date:** January 8th, 2018

### **Position Summary:**

This Nurse Practitioner's (NP) focus is adults (ages 18+) with addiction issues (substance use disorders, behavioural addictions, and certain eating disorders) who have been admitted to Cedars at Cobble Hill residential treatment program. In this position the NP performs clinical evaluations and physical examinations for new patient admissions, monitors patients through detoxification, orders and reviews diagnostic studies, orders and monitors medications and manages clinical care when medical problems arise through the course of a patient's stay. The NP is an integral member of an interdisciplinary team, collaborating actively with addiction medicine physicians, psychiatrist and LPN staff.

Daytime work 09:30 to 17:30. Shared call schedule (availability by phone). Days of work negotiable from part-time to full-time.

This position can include participation in research studies at Cedars.

Cedars at Cobble Hill, just north of Victoria, is a 65-bed private residential treatment centre including 10 publicly funded beds. Our centre is located on 60 acres of forest. Smaller communities close by include Duncan, Shawnigan Lake, Mill Bay and Cowichan Bay. We are committed to utilizing evidence-based practices and integrating research methodology into standard practices. Addiction treatment is approached from a recovery capital perspective rather than from just a problem-focused one.

Cedars offers work-life balance with competitive wages, professional development and educational leave. Many staff possess lived experience with addiction and recovery.

### **Qualifications:**

- Current Nurse Practitioner registration with the College of Registered Nurse of British Columbia (CRNBC).
- Successful completion of the OSCE (Objective Structured Clinical Examination)
- Addiction medicine skills preferred
